## **Bid Evaluation**

Although the cost of the product/service is of primary concern, the ability to accommodate growth and change and the total cost of operation (TCO) within the school are, in many ways, more important. **Do not assume the lowest bid will be awarded the project.**

To achieve this goal, bids will be evaluated on several factors.

- Prices/charges

- Prior experience

- Understanding of needs

- Financial stability

- Personnel qualifications

- Comply with the spirit of the school's long range technology plan

- Compatibility with school hardware/software standards as set forth within school's long range technology plan

- Provide lower long-term cost of ownership

- Ability to upgrade and adapt to technological advances

- Completeness of response and adherence to bid specifications

- Summary of project implementation plan

- Capability of the bidder to successfully complete the installation within the required timeframe

- Satisfactory references from area schools of similar nature and services
